

Vivek Singh Yede

Senior PHP Web Developer

✉ viveksingh12071990@gmail.com ☎ 9923597209 📍 Nagpur, Maharashtra

SUMMARY

Senior PHP Web Developer (Laravel) with 12+ years of experience building reliable and scalable web applications. Strong in REST APIs, database optimization, and delivering solutions that perform efficiently in real-world environments.

PROFESSIONAL EXPERIENCE

Senior PHP Developer & Team Lead, *Swarna Pragati Housing Microfinance Pvt. Ltd.* 08/2021 – Present | Nagpur, India

- Led end-to-end development of a **Loan Management System**, streamlining loan processing and improving operational efficiency
- Designed and implemented **secure RESTful APIs** for financial transactions and customer data management
- Optimized **MySQL queries, indexing, and database performance**, significantly reducing report generation time
- Integrated **payment gateways and third-party services** (SMS, Email, KYC APIs) to enhance system functionality
- Migrated legacy applications from **Core PHP to Laravel**, improving scalability, maintainability, and code quality
- Collaborated with stakeholders to gather requirements and deliver **robust, scalable solutions** aligned with business needs

PHP Developer & Team Lead, *Cloud Nxt Vision* 01/2020 – 07/2021 | Pune, India

- Developed and maintained **ERP and CRM systems** using Laravel and Core PHP
- Designed **REST APIs** and integrated third-party services for real-time operations
- Optimized backend performance and ensured smooth application functionality
- Managed client communication and ensured timely project delivery

PHP Web Developer, *MIT-ADT University* 03/2017 – 01/2020 | Pune, India

- Built and maintained **web-based academic systems**, including online examination platforms
- Developed secure modules for user authentication and role-based access
- Improved application performance through **query optimization and code refactoring**

Junior PHP Web Developer, *Logic Palace System & Software* 08/2012 – 01/2017 | Pune, India

- Developed multiple **client websites and web applications** using Core PHP and CMS platforms
- Worked on **e-commerce solutions, WordPress, and OpenCart-based projects**
- Assisted in building dynamic and responsive web interfaces

PROJECTS

Loan Management System

2021 – Present

Worked on a Loan Management System used in microfinance operations, handling loan entries, EMI tracking, and basic reporting. Also worked on APIs and database queries to support smooth system functioning.

ERP System (HR, Payroll, Inventory)

2020 – 2021

Involved in developing ERP modules for HR, payroll, and inventory management. Handled backend development and database operations to support daily business activities.

Online Examination System

2017

Developed and maintained an online exam system with features like user login, exam management, and result processing.

CRM System

Worked on a CRM system for managing customer data and leads. Developed features for data handling and basic reporting.

Billing & Invoicing Software

Developed a billing system for generating invoices and maintaining basic reports for transactions.

E-commerce Websites

Worked on multiple e-commerce websites with product listing, cart, and order management features. Also handled payment integration in some projects.
